

6th Applied Biosystems – LABINDIA LIFE SCIENCES MS User Meeting

Greetings!

As another year rolls by and our relationship grows stronger, I take this opportunity to thank you for your business and patronage. I do further hope that the instruments you own are serving well and contributing to your success.

You may have heard about the launch of our new company 'LABINDIA LIFE SCIENCES'! Our new company will focus the needs of the laboratories engaged in research in Life Sciences. Partnering with Applied Biosystems we will continue to strive hard to offer you world class instrumentation, consumables and support services to make sure you get the maximum returns out of your investments in Applied Biosystems instrumentation. Most of you have already sent your people to attend our MS training programs and seen for yourself the investments we have made towards establishing a state of the art training centre our Gurgaon office. Our programs like training courses, seminars, workshops and user meetings give us opportunities to hear from you what we can do further for our mutual benefit. Our user meetings, always very well attended and appreciated for the quality of information exchange, offer our users like you opportunities to interact with the senior managements of Applied Biosystems, MDS Analytical Technologies and Labindia Life Sciences.

It gives me immense pleasure to announce our **6th Applied Biosystems – LABINDIA LIFE SCIENCES MS user meeting** from **Nov 28 to 30, 2008**, both days inclusive at **Jaipur** and invite you and your colleagues to attend. As in the past we count on your attendance to make it a success

The scientific sessions in the meeting will run in parallel to cover the following areas:

- Small Molecules session covering small molecules analysis in the pharma and related world,
- Proteomics session covering the applications of mass spectrometry in the proteomics research like Biomarker Discovery, Verification and Validation
- Applied Markets session covering the applications of mass spectrometry in the field of food, forensic, dope testing.

Like the previous user meetings, this meeting will provide an ideal platform for sharing the knowledge and experience of our users and guest speakers. The interactive sessions will give you an opportunity to address your application queries with other users and senior scientists from Applied Biosystems and MDS Analytical Technologies.

For complete details of the meeting and how to participate, kindly contact our local sales representative at the earliest. Registration closes on 3rd November, 2008, Or send your request to singhj@labindia.com, mentioning in the subject line – 'LABINDIA MS User Meeting registration'.

I eagerly look forward to hearing from you soon and to meeting you personally in Jaipur.

Thanking You,

Yours truly,

Umesh Pawa
Vice President
Proteomics and Small Molecules Division
